

U5智慧锅炉

U5 Intelligent boiler

变频恒压高效烫，提效15%

Frequency conversion constant pressure high efficiency ironing, increase efficiency by 15%

2023.09

变频恒压系统

Variable frequency constant pressure system

电磁加热零等待
出气恒温不掉压
变频控制更节能

Electromagnetic heating -zero wait
Constant temperature output gas -No pressure loss
Frequency conversion control -more energy efficient

电磁恒压技术

Electromagnetic constant pressure technology
热效率高达98.5%，3分钟快速出气；连续用气不掉压，熨烫更高效。
heat efficiency up to 98.5%, 3 minutes quick gas out;
Continuous use of gas without losing pressure,
ironing more efficient.

变频热控技术

Frequency conversion thermal control technology
三重温度PID控制，自适应温度不伤料；纯铜换热单元，双重热量回收，节能25%。
Triple temperature PID control, the adaptive temperature does not damage material; Pure copper heat transfer unit, double heat recovery. 25% energy saving.

杰克锅炉

智能变频电磁加热，上气快，气量足，
热效率可达98.5%，水垢少，免换管。

Intelligent frequency conversion electromagnetic heating,
the gas on is fast and sufficient, thermal efficiency is 98.5%,
Less scale, no need to change tube.

传统锅炉

电热管加热，热效率85%，上气慢，
出气湿，水垢多，频繁换管。

competitive product, Electric heating tube,
gas-on is slow and wet, thermal efficiency 85%,
Scaly, frequent change of tube.

技术参数

| 机型 Model | 加热功率 Heating power | 蒸汽压力 Rated steam pressure | 额定蒸发量 Rated capacity | 额定蒸汽温度 Rated steam temperature | 电源 Power supply | 出气口径 Steam output dimension | 外形尺寸 Outlin Dimension |
|-------------|-----------------------|------------------------------|-------------------------|-----------------------------------|--------------------|--------------------------------|--------------------------|
| U5-10M | 10kw | 0.4-0.7MPa | 15.6kg/h | 145-168°C | 380V/1PH/50Hz | Dn15 | 690×860×1200mm |
| U5-15M | 15kw | 0.4-0.7MPa | 23.4kg/h | 145-168°C | 380V/3PH/50Hz | Dn15 | 690×860×1200mm |
| U5-20M | 20kw | 0.4-0.7MPa | 31.2kg/h | 145-168°C | 380V/3PH/50Hz | Dn15 | 690×860×1200mm |
